Property description

Eco Village is part of the forested area "Kasada", within the territory of the town of Sveti Vlas, offering panoramic sea views and featuring a pronounced southern slope. This natural setting allows for a picturesque urban planning concept, providing diverse views of both the forest and the sea from every residential building. All materials used are eco-friendly, high-class, and eco-certified, and the overall appearance of the complex is in perfect harmony with the surrounding forest environment.

We offer for sale a two-storey house with panoramic sea views in Venid Eco Village. The house has a total area of 199 sq.m. and the following layout:

- First floor: living room with kitchenette, utility room, bedroom, bathroom with toilet, veranda;
- Second floor: three bedrooms, three bathrooms with toilets, terrace

The architectural style of the house is inspired by Bulgarian Revival architecture, featuring characteristic materials and design elements such as bay windows and extended roof eaves. The ground floor is finished with stone cladding, while the second floor features white mineral plaster and wooden siding. The roof is pitched, with a wooden structure and decorative elements.

Eco Village offers a wide range of amenities, including two tennis courts, swimming pools for adults and children, an apart-hotel, a chapel, parking facilities, and a fully developed internal infrastructure, all designed in harmony with nature.
